

ABSTRACT OF THE INVENTION

A demountable lampshade includes a plurality of shade piece and a connecting base. Each including a frame with a upper frame section, a lower frame section and two side frame sections, and at least one side frame having a buckle member formed thereon to clamp two corresponding side frame sections when the shade pieces are mounted to each other. The connecting base located to the upper frame sections of the mounted shade pieces, including an outer ring, an inner ring and a plurality of connecting rods connected between the outer and inner rings. Accordingly, the lampshade structure can be rapidly and easily disassembled for conveniently storing or transporting.
